Express Mail No.: EV310269339US Sheet 3 of 16

Life Panel is loaded to the personal memory page and then placed on server for retrieval by firm. Memory/register book is posted to server for retrieval. Thank-you card and client-family survey are posted to the server by the central processing facility.

Memory video executable file is loaded to the server for firm's retrieval by the central processing facility.

Final text is added to the memory folder and the memory folder is loaded to the server by the central processing facility.

End of service video executable file is loaded to the server by the central processing facility.

Final memory/register book is created using the memorial contributions and floral offerings and other information transmitted to the central processing facility and from the website. It is then placed on the server for retrieval. All by the central processing facility.

End of service video is loaded to the server by the central processing facility.

Final changes are made to the memory video per the changes transmitted by the client-firm. Digital media is created along with packaging and other content added to the digital media, currently DVD. All by the central processing facility.

Copies are made and final order is shipped or transmitted electronically to member-firm by the central processing facility.

Family gives final approval of Life Story.

Client-Firm downloads and prints the Life Panel, Memory Book, Thank you cards and Client Family Survey.

The memory video executable file is downloaded. The file is executed and digital media is created at the member-firms site. It is then distributed to the place where it will be used. All by the client-firm.

Life Story is marked by posting person as final on the website.

Memory Folder is downloaded and printed at the client-firm.

End of service video executable file is downloaded, executed and the digital media is created on site by the client-firm.

Memorial contributions and floral offerings are complied on a list and transmitted to central processing facility by the client-firm.

Final memory/register book is downloaded and printed onsite by the client-firm.

Approval by family of the video text, changes transmitted to central processing facility along with the order for final digital media, currently DVD. All by the client-firm.
